

# South Africa's Premier Dive Resort and the ultimate IDC DESTINATION

## DO YOUR IDC IN THE WARM WATERS OF SODWANA BAY

Imagine a job that you love to head off to every morning. As a PADI Open Water Scuba Instructor, the possibilities are endless - whether you end up working worldwide in a PADI dive centre, resort, or liveaboard. Get ready for the adventure of a lifetime.

To get there you will need to undergo the PADI Instructor Development Course (IDC) and successfully complete the Instructor Exam (IE). Prepare yourself to become the best you can be.

The IDC is a ten day course and includes the following components:

### IDC (Instructor Development Course)

A seven day intensive program combining the AI (Assistant Instructor) and OWSI (Open Water Scuba Instructor) syllabus to develop your classroom, confined and open water teaching abilities.

### EFRI (Emergency First Response Instructor)

An important aspect for any PADI Instructor. Teaching first aid courses for SCUBA divers will give them the skills and confidence when responding to emergency situations.

### MSDT (Master Scuba Diver Trainer)

Greatly enhance your professional dive credentials with the ability to offer Specialty training.

### IE (Instructor Exam)

A 2 day examination, testing your theory, classroom, confined and open water teaching abilities.

### WHY CHOOSE US...?

- ✓ Run by a **PADI Platinum Course Director**
